

Defarb Request Instructions:

This simple form will help explain the process of sending a weapon in for defarb and also allows you to select exactly which defarb services you wish to be applied to your gun.

Step 1: Give us a Call/Send us an Email before you send us anything!

-We ask that all customers who are interested in defarb contact us first. That way, you can explain to us exactly what it is you want done and discuss and we can address any questions you may have. If you've already been in contact with us, congratulations! You already completed step 1.

Step 2: Print and Fill out the Defarb Request Form

Complete this form and include it in the box with your musket. Every gun sent to us **MUST** include this form in order to help identify who the gun belongs to and what needs to be done to it.

Step 3: Box it Up and Send it to Us!

Carefully package your gun and send it off to us. We recommend shipping through UPS as UPS stores are usually conveniently located and they offer shipping boxes long enough to accommodate a full-length musket. Because we only defarb black powder guns, there are no federal regulations on shipping them through the mail or through a postal carrier-just send it just like you would any other parcel. You may also ship via USPS, but we recommend avoiding FEDEX as their delivery service in our area can be unreliable. Please take any accessories off the gun (slings, nipple protectors, front sight protectors, etc.) they are difficult to keep track off and often have small parts and pieces that can get lost. We are not responsible for lost accessories.

Ship all guns to:

LodgeWood MFG
4819 E. Case Drive
Janesville, WI 53546

Step 4: Payment:

Turnaround time for a defarb is about 6 months from the day your weapon arrives at our shop. Although the actual work takes only a few days, our we must work on the guns in the order we receive them, and we typically have between 60-100 in the shop for defarb at any given time. When the work is completed, we will contact you via telephone with a final total. Please do not send payment until after you've been notified that the wok is complete. You can pay over the phone with a credit card number or send us a check or money order. We will box your gun back up and send it to you as soon as we receive payment.
